

Double Degree Master Program

T.I.M.E.

Politechnika Wroclawska

T.I.M.E. Top Industrial Managers in Engineering

- Network of 59 leading technical universities from 25 countries, including Europe, Asia, Australia, Canada, Latin America.
- Only two universities from Poland: **Wrocław University of Science and Technology** and AGH in Cracow.
- Educational program based on diverse cultural backgrounds, culminating in two diplomas implemented on the basis of an agreement between two partner universities.

Double Degree program objectives

- ✓ education based on diverse cultural backgrounds under the agreements of partner universities, leading to obtaining two diplomas (from home and host universities)
- ✓ implementation of the agreed study program and achievement of learning outcomes within the required period of the study (3 semesters at the partner university to receive the so-called *TIME Label Certificate*)
- ✓ studying in the partner university language (or in English)
- ✓ familiarity with the culture, education system and customs of another country
- ✓ possibility of an internship in a foreign company
- ✓ acquisition and improvement of work skills in an international group
- ✓ greater employment opportunities on the international labor market
